Subject Index — Volume 72

Agricultural biotechnology, politics, policy and plant-made pharmaceuticals, trends affecting the next generation of U.S., 72:521

Biomedicine, and the relationship with the economy in developing citizen scenarios in Germany in 2014, 72:195
Biosociety, developing key technologies and new professions, from information society to, 72:501
Biotechnology, Brazil, the Amazon, using resources in R&D policy planning, 72:535
Brazil, using resources in R&D policy planning, 72:535
Broadband, access networks, selecting a technology evolution path, 72:449
Broadband, infrastructure demands, the promise of Gigabit Ethernet, 72:1
Broadband, the case of Internet access in Korea, 72:301

Cable service, estimating the demand in the U.S. in the presence of measurement error in the data, 72:585
Canon, assessment of sustainable growth trajectory utilizing technological diversification and techno-economic structure, 72:11
China, intellectual property protection related to technology in, 72:339
Citizen scenarios, development of, in the relationship between biomedicine and the economy in Germany in 2014, 72:195
Clean Air Act, introduction of advanced automotive emissions controls, 72:761
Co-evolutionary multi-level perspective, processes and patterns in transitions and system innovations, 72, 681
CO_2 reduction, evaluating new technologies in Japan up to 2030, 72:779
Core competencies, epochs driven by the dynamics between disruptive technologies and, 72:213

Danish experience, refining the debate on GM crops using technological foresight, 72:549
Delphi, the role of majority influence, expertise and confidence, 72:377
Delphi, impeachment and terrorism, accuracies of short-range forecasts for volatile world events, 72:401
Demand forecasting, combining discrete choice and dynamics of diffusion under technological trajectories, 72:825
Discussion of Devezas et al. article,
Ayres, comments by, 72:936
Discussion of Huebner article,
Modis, comments by, 72:987
Smart, comments by, 72:988
Huebner, response by, 72:995

Disruptive technologies, epochs driven by the dynamics between core competencies and, 72:213

Early-adopters, separating from the majority, the case of Broadband Internet access in Korea, 72:301
Economic growth models, endogenicity of, 72:75
Electricity consumption, in New Zealand, a comparison of Logistic and Harvey models, 72:1030
Electric load demand, seasonal models, 72:609
Emerging technologies,
identification and selection of in Singaporean SMEs, 72:349
tracing emerging irreversibilities, the case of nanotubes, 72:1094
methodological challenges and the case of nanotechnologies, 72:1112
Emissions controls, implementing technology-forcing policies, the 1970 Clean Air Act Amendments, 72:761
Energy, technologies and regulatory policies in flux, 72:719
Evolutionary theory, technological change, state-of-the-art and new approaches, 72: 1137

Firm's techno-economic structure, and technological diversification in assessment of Canon's sustainable growth trajectory, 72:11
Food consumption, and production systems, transformations in, 72:663
From my perspective:
economic activities likely to dominate the new millennium, VII. Principles and patterns of economic era development 72:85
the future of clothing, 72:101
lessons from 9/11, are companies better prepared today, 72:375
VIII. continuum of change: perspectives on physical or "hard" sciences, 72:481
business is not what it used to be.. and never will be, 72:641
why we need a strategic plan for "spaceship earth", 72:749
Frontiers, future research, what's next, 72:1064
Future-oriented technology analysis, new horizons and challenges, the 2004 EU-US Seminar, 72:1059
Futures research, what's next, 72:1064

Future shocks, on discontinuity and scenario development, 72:175

Germany, developing citizen scenarios for the relationship between biomedicine and the economy in 2014, 72:195
Gigabit Ethernet, meeting the broadband access infrastructure demands, the promise of, 72:1
GM crops, refining the debate using technological foresight–the Danish experience, 72:549
Greece, urban guerrilla activities in, 72:49
Grey forecasting model, semiconductor industry production in Taiwan, 72:623
Guerrilla, activities in Greece, 72:49

History of physics, application of logistic analysis, 72:471

ICP mechanism, review and stage approach for Taiwan, 72:29
Impeachment, terrorism and the Delphi method, short-range forecasts for volatile world events, 72:401
Induced technological innovation, control of SO2 emissions from power plants in the U.S., 72:697
Information society, on societal waves, developing key technologies and new professions, 72:501
Innovation policies, and technology management in Asia, lessons learnt and future challenges, 72:249
Intellectual property protection, related to technology in China, 72:339
Intelligence systems, the role of scanning, 72:1082
Internet,
growth dynamics and the long wave theory, 72:913
internet, the end of the rush, 72:938
Investment areas, evaluation of laboratory directed research and development at Sandia, 72:1122
Irreversibilities, in emerging technologies, the case of nanotubes, 72:1094

Japan, evaluating new CO_2 reduction technologies, 72:779

Knowledge, notes on the epistemic element in scenario building, 72:815

Korea, separating early-adopters from the majority, the case of Broadband Internet access, 72:301
Korean stock market, a dynamic competition analysis using Lotka-Volterra model for technological forecasting, 72:1044

LDRD, investment areas at Sandia, 72:1122
Logistic analysis, application to the history of physics, 72:471
Logistic and Harvey models, a comparison for electricity consumption in New Zealand, 72:1030
Long wave theory, and the growth dynamics of the Internet, 72:913
Lotka-Volterra model, a dynamic competition analysis, technological forecasting at the Korean stock market, 72:1044

Majority influence, expertise and confidence, judgement change during Delphi-like procedures, 72:377
Managing emerging technologies, in Asia, special issue, 72(3)
Measuring intensity of technological change, the seismic approach, 72:117
Mexico's science and technology, structure and infrastructure, 72:798
Mobile data services, demography, attitudes or needs, 72:327
Morphology analysis, keyword based, a systematic approach for identifying technology opportunities, 72:145
Multigenerational products, combining discrete choice and dynamics of diffusion, demand forecasting for, 72:825

Nanotechnologies, assessing emerging technologies, 72:1112
Nanotubes, tracing emerging irreversibilities in emerging technologies, 72:1094
New Zealand, a comparison of Logistic and Harvey models for electricity consumption, 72:1030

Participatory prognostics, developing citizen scenarios for the relationship between biomedicine and the economy in Germany in 2014, 72:195
Pharmaceuticals, trends affecting the next generation of U.S. agricultural biotechnology, 72:521
Physical or "hard" sciences, continuum of change: perspectives on, 72:481
Politics, European parliamentary technology assessment, 72:429
Production systems, give peas a chance, transformations in food consumption and, 72:663

Quality-ladder approach, technological progress and market growth, an empirical study based on, 72:413

R&D policy planning, Brazil, the Amazon and biotechnology, 72:535
Regulatory policies, and technologies, energy sector in transition, 72:719
Remote sensing, program in India, a national system of innovation, 72:287
Reverse logistics, analysis of interactions among its barriers, 72:1011
Roadmapping, to aid Singaporean SMEs identify and select emerging technologies, 72:349
Roadmapping, customization of technology roadmaps, process and detailed modules, 72:567

Sandia, evaluation of LDRD investment areas, 72:1122
Scanning, its role in open intelligence systems, 72:1082
Scenario analysis, as a strategic management tool, 72:161
Scenarios, and the growth of knowledge, notes on the epistemic element in scenario building, 72:815
Scenario development, the future shocks, 72:175
Scenario planning, theory, research suggestions and hypotheses, 72:59
Seismic approach, measuring intensity of technological change, 72:117
Semiconductor industry, a variable P value rolling Grey forecasting model for Taiwan, 72, 623
Semiconductor industry, a variety increasing view of its development in Taiwan, 72:850
Semiconductor silicon industry roadmap, epochs driven by the dynamics between disruptive technologies and core competencies, 72:213
Singapore's economic strategy, the changing role of technology policy, competing at the frontier, 72:255

Singaporean SMEs, identify and select emerging technologies with the application of Operation and Technology Roadmapping, 72:349
Smart card market, is collaborative strategy necessary in the shaping of, 72:1001
SO_2, control of emissions from power plants, a case of induced technological innovation in the U.S., 72:697
Spaceship earth, why we need a strategic plan, from my perspective, 72:749
Strategic management, how to improve scenario analysis, 72:161
Sustainability,
through system innovation, special issue, 72:651
learning and stakeholder participation in transition processes, methodological considerations, 72:733
System innovation, transitions towards sustainability through, 72:651
System of innovation, Indian remote sensing program, 72:287

Taiwan, development of the semiconductor industry, a variety increasing view, 72:850
Taiwan's ICP mechanism, a review and stage approach, 72:29
Technological change, state-of-the-art and new approaches, 72:1137
Technological diversification, an assessment of Canon's sustainable growth trajectory, 72:11
Technological progress, and market growth, an empirical study based on the quality-ladder approach, 72:413
Technology assessment, in politics and institutions of the European parliament, 72:429
Technology evolution path, selection of for broadband access networks, 72:449
Technology-forcing policies, the 1970 Clean Air Act Amendments and the introduction of advanced automotive emissions controls in the United States, 72:761
Technology management, and innovation policies in Asia, 72:249
Technology opportunities, a systematic approach for identification of, 72:145
Technology parks, ventures and clusters in Japan, obstacles to emergence of high/new, 72:359
Technology policy, its changing role in Singapore's economic strategy, 72:285
Technology roadmaps, customization according to roadmapping purposes, overall process and detailed modules, 72:567
Technometrics, origins, historical evolution and new directions, 72:944
Transition processes, towards sustainability, learning and stakeholder participation, 72:733
Turkish manufacturing, industrial dynamic technological learning trends, 72:866
Turkish 5-year development, construction sector, a systems approach to policy analysis and development planning, 72:886

Wakeup call, for America, editorial, 72:757
Worldwide innovation, a possible declining trend, 72:980

9/11, lessons from, are companies better prepared today, from my perspective, 72:375

2004 EU-US Seminar, new horizons and challenges for future-oriented technology analysis, 72:1059

Contents

Special Issue
New Horizons and Challenges for Future-Oriented Technology Analysis: The 2004 EU-US Seminar
Guest Editor: Fabiana Scapolo

FABIANA SCAPOLO (Seville, Spain)	Introduction	1059
THEODORE J. GORDON JEROME C. GLENN ANA JAKIL (Washington DC, United States)	Frontiers of Futures Research: What's Next?	1064
ALAN L. PORTER (Norcross, GA, USA)	QTIP: Quick Technology Intelligence Processes	1070
KERMIT M. PATTON (Menlo Park, CA, United States)	The Role of Scanning in Open Intelligence Systems	1082
RUTGER O. VAN MERKERK HARRO VAN LENTE (Utrecht, The Netherlands)	Tracing Emerging Irreversibilities in Emerging Technologies: The Case of Nanotubes	1094
TORSTEN FLEISCHER MICHAEL DECKER ULRICH FIEDELER (Karlsruhe, Germany)	Assessing Emerging Technologies—Methodological Challenges and the Case of Nanotechnologies	1112
KEVIN W. BOYACK NABEEL RAHAL (Albuquerque, NM, United States)	Evaluation of Laboratory Directed Research and Development Investment Areas at Sandia	1122
TESSALENO C. DEVEZAS (Covilhã, Portugal)	Evolutionary Theory of Technological Change: State-of-the-Art and New Approaches	1137
	Book Reviews	
TUGRUL U. DAIM (Hillsboro, OR, United States)	*Sectoral Systems of Innovation: Concepts, Issues and Analyses of Six Major Sectors in Europe* (F. Malerba)	1153
JOSEPH P. MARTINO (Sidney, OH, United States)	*The Economics of Technology Diffusion and Energy Efficiency* (P. Mulder)	1155
